## **DETAILED ACTION**

### ***Status of Claims***

1. Claims 1, 2, 9, 11, 12, and 17-27 are rejected.
2. Claims 1, 2, 9, 11, 12, and 17-27 are rejected.
3. Claims 3-8 are cancelled as per the amendment of August 21, 2003.

### ***Response to Arguments***

4. Applicant's arguments filed August 21, 2003 have been fully considered but they are not persuasive with respect to the rejection over claims Villalobos et al. Applicants present the following arguments. Applicant alleges that Villalobos et al. are only directed to improving the memory of Alzheimer's disease patients, who are humans, not companion animals. However, this allegation is not found persuasive because of the ensuing reasons. The claims of Villalobos et al. are directed to enhancing memory in a mammal or treating Alzheimer's disease in a mammal with the compounds of formula (I). Accordingly, the term companion animals are most certainly embraced by the term mammals. In addition, the invention of Villalobos et al. is most certainly directed to enhancing memory to a mammal, which obviously overlaps and renders the instant claims that are directed to age-related behavioral disorders as obvious. For these reasons and those of record the judicially created doctrine of obviousness-type double patenting over U.S. Patent No. 5,538,984 is maintained.

Art Unit: 1614

### ***Obviousness-type Double Patenting***

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. The rejection of claims 1, 2, 9, 11, 12, and 17-27 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 2 of U.S. Patent No. 5,538,984 is maintained and repeated. Although the conflicting claims are not identical, they are not patentably distinct from each other because both the instant invention and U.S. Patent No. 5,538,984 are directed to improving a cognitive disorder by improving or enhancing memory to a mammal with the administration of the compounds of formula (I). In addition, the compounds and pharmaceuticals of U.S. Patent No. 5,538,984 are relevant to treating "mammals", which obviously embraces and renders the instant term of "companion mammals" obvious to the skilled artisan.

### ***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
